

Server Colocation

Hypersurf is dedicated to your demanding business applications

Safe and Secure isn't the only thing great about our Datacenter.

Our co-location facilities allow you to connect your servers directly to our backbone, providing easy access to the internet. You have 24 hour access to your servers via card key entry to the facility. We provide multiple paths to the Internet, so your data can get where it needs to go faster. Of course UPS and backup generators are online to provide safe and reliable power. We provide locking cabinets for enhanced security at no extra cost. Contact us now to get a quote.

Colocation Plans

Single Server	From 1U to a Tower Server.
1/4 Rack	16 IPs, 10.5u's, 4 amps, 0.25 M
